

## **Clark Forklift**

At present, there are over 350,000 Clark forklifts performing globally, and upwards of 250,000 in use in North America alone. With five main lines across the world, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, covers more than 120,000 specialized parts intended for 20 unique models of lift trucks and automated equipment. Your regional Clark Supplier is your total source for availability of all your components requirements provided by Clark Totalift.

Clark features a exceptional Parts Distribution team. The components warehouses are conveniently located in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their customers and their sellers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Motivated to offer the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to enhancing output and benefiting performance.

Clark Totalift has a really impressive global support network. With over 550 locations worldwide, seller representation in over 80 nations and 230 locations in North America, their high level of commitment to their clients predominates the materials handling market.

Clark proudly remains an innovative leader of the material handling industry, revolutionizing protection features such as the worker restraint system. This exceptional commitment to safety is at this time a customary feature on every forklift.

Clark has a relentless goal to possess the No. 1 quality system in the industry which is demonstrated by their dedication to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be globally certified with quality standard ISO 9001 in all of its manufacturing facilities. Additionally, the ISO 14001 Environmental Conservancy System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any number of environmental restrictions, thus placing them in a dominant industry position.

## **Lean Production**

Clark has preferred the very economical and advantageous system of "Lean Manufacturing" for its assembly facilities and use of resources. This system was developed to acknowledge the most effective method of production plant management and ensuring maximum proficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

## **Engineering**

By working together, Clark's product suppliers and engineers communicate towards enhancing product proficiency while minimizing expenses. The new value engineering program combines innovative product development and offers improved consumer support and service within the industry.
